

What is TuNur energy doing in Tunisia?

In Tunisia, Nur Energie is developing the world's first CSP solar export project between North Africa and Europe. For more information about the TuNur project please visit the TuNur company website:

Why should you invest in solar power in Tunisia?

Nur Energie has built and maintained a solar weather station for 3 years on the TuNur site to receive real time solar data on the ground. Tunisia has up to 20% better radiation than some of the best sites in Europe, and the Sahara desert provides significant land to develop large scale solar power projects.

Where is TuNur energy located?

The site is located in the Sahara desert and has a solar radiation level of 2500 kWh/m² annually. Nur Energie has built and maintained a solar weather station for 3 years on the TuNur site to receive real time solar data on the ground.

Why should we invest in CSP technology in Tunisia?

In Tunisia the project will contribute to industrial development, improve energy security and will establish expertise in CSP technology and industry in the region.

Renewable energy investment company, Low Carbon and utility scale solar developer Nur Energie, are partnering in the development of their TuNur project. TuNur is a flagship 2GW solar export project in the Tunisian ...

By Anca Gagiuc. TuNur, a private company incorporated in the United Kingdom, the principal shareholders of which are solar power plant developer Nur Energie Limited and Tunisian and Maltese investors, filed for authorization with the Tunisian Ministry of Energy, Mines and Renewable Energy for a 4.5-gigawatt solar export project.

Power and RE sector in Tunisia The Tunisian Solar Plan RE projects in Tunisia 1.1. POWER AND RENEWABLE ENERGY SECTOR IN TUNISIA 01 ENERGY CONTEXT V RENEWABLE ENERGY PROJECTS IN TUNISIA GUIDE SUMMARY (2019) The energy situation in Tunisia is marked by limited resources, a decrease in production and a sharp increase in demand.

In 2009, the Tunisian government adopted "Plan Solaire Tunisien" or Tunisia Solar Plan to achieve 4.7 GW of renewable energy capacity by 2030 which includes the use of solar photovoltaic systems, solar water heating

systems and solar concentrated power units. The Tunisian solar plan is being implemented by STEG Énergies Renouvelables (STEG ...

Tanfon Supply: Free site survey, design, production, installation, maintenance with our sophisticated one-stop service.. For the products, Each set solar power system has power on& off test 100 times per hour.Each step of production is under strict quality control.Our products are qualified with CE, ROHS, ISO, SGS certification. For our project case: Our products have ...

So far, several mega solar power plant projects are underway, with a view to exporting electricity to Europe via submarine cable systems. In southern Tunisia, on the Algerian border, a gigantic solar power plant developed by the Tunisian-British company TuNur may spring up in the upcoming years.
