

Does Turkey have a minimum import price for solar cells?

The Turkish government has set a minimum import price of \$60/kg, so solar cell imports exceeding this threshold will be subject to import duties. The measure is designed to protect domestic cell manufacturers. A 4.2 MW rooftop PV system installed by IBC Solar in Turkey.

Will Turkey impose a tariff on solar panels?

The Turkish government has decided to impose a tariff of \$25 per square meter on solar modules imported from Vietnam, Malaysia, Thailand, Croatia, and Jordan. The Ministry of Trade said last week that it has come up with new provisions for imports of solar panels from Vietnam, Malaysia, Thailand, Croatia, and Jordan.

What happens if Turkish solar modules import over \$60/kg?

If Turkish module manufacturers decide to import solar cells above the \$60/kg limit, they will be hit with import duties. There are currently two manufacturers in Turkey that also produce or plan to produce solar cells - Kalyon Solar Technologies in Ankara and Smart Solar Technologies in Izmir.

Why did Turkish companies install solar PV systems in 2022?

Further, in 2022, according to Turkey's energy market regulator, more than 300 companies had opted for installing solar PV systems due to a rise in electricity prices caused by the collapse of the currency and a spike in gas prices. The companies made approximately USD 100 million value of investment applications to install solar PV systems.

Will Turkish investors take part in the nascent Solar market?

Both local and foreign investors are making plans to take part in the nascent Turkish solar market. Although the potential of solar power in Turkey has been recognized for many years, it was not until June 2013 that the regulatory authority in Turkey ("EMRA") began to request license applications for solar power plants.

Does Turkey impose import duties on solar cells?

Emiliano joined pv magazine in March 2017. He has been reporting on solar and renewable energy since 2009. The Turkish government has set a minimum import price of \$60/kg, so solar cell imports exceeding this threshold will be subject to import duties. The measure is designed to protect domestic cell manufacturers.

Oceanic Solar is a progressive branch off focusing on industrial solar contracting offering a full-range of specialised solar construction and maintenance services. For over 17 years, we have provided cost-effective solutions as a prime or subcontractor on many projects throughout the Oceania Region. Oceanic Solar | 1.428 follower su LinkedIn ...
