

Who financed the Papua New Guinea national energy access transformation project?

by adminNEA |Sep 28,2023 |Uncategorized Papua New Guinea National Energy Access Transformation Project The Papua New Guinea National Energy Access Transformation Project (NEAT or the 'Project') will be financed by the World Bank and implemented by the National Energy Authority (NEA) and PNG Power Limited (PPL).

What is Papua New Guinea's energy future?

"This project represents a major step forward for Papua New Guinea's energy future. It will not only expand access to reliable electricity but will also contribute to the country's climate goals by scaling-up renewable energy," said World Bank Group Country Manager for Papua New Guinea, Khwima Nthara.

What does the PNG Energy Authority do?

Our people are at the heart of our work, and we focus on ensuring all households and businesses in PNG will have access to reliable and affordable electricity in the near future. The Authority's core functions are policy making and regulation of the energy market, including electricity and downstream gas industry, under the energy laws in PNG.

Does Papua New Guinea have biomass?

Traditional biomass - the burning of charcoal, crop waste, and other organic matter - is not included. This can be an important source in lower-income settings. Papua New Guinea: How much of the country's electricity comes from nuclear power? Nuclear power - alongside renewables - is a low-carbon source of electricity.

What is National Energy Authority (NEA)?

NEA exists to implement the National Energy Policy 2017 - 2027 to provide electricity for all households and businesses in PNG, by harnessing renewable energy sources and downstream gas industry in a sustainable way and for the prosperity of PNG. The Authority was established by virtue of the National Energy Authority Act 2021.

When was the National Energy Authority established?

The Authority was established by virtue of the National Energy Authority Act 2021. Formerly the Energy Wing of the Department of Petroleum and Energy, the call for its separation gained momentum preceding the launching of the National Energy Policy 2017- 2027.
