

What is Pelican Energy Partners?

Pelican Energy Partners is a highly specialized private equity firm focused on making strategic investments in energy services and manufacturing companies.

Is Pelican a growth equity investor?

As growth equity investors, Pelican is dedicated to expanding nuclear energy services to support the sector. Completion of the transaction is expected in the third or fourth quarter of 2024, subject to the approval of GSE shareholders and the satisfaction of other customary closing conditions.

How does Pelican identify strong companies?

Pelican Energy Partners identifies strong companies with EBITDA generally between \$1 million and \$15 million annually. We have the ability to consummate transactions with EBITDA up to \$30+ million.

What makes Pelican a good investment?

Pelican, in its third fund, has a sophisticated, repeatable process to deliver excellence for investors and portfolio companies. This commitment to excellence aligns with our core values and never taking shortcuts. Pelican's pledge to ESG is also at the core of who we are, and energy's importance to the global economy is acknowledged.

Will Pelican acquire GSE?

Under the terms of the merger agreement, which was unanimously approved by the board of the directors of GSE, Pelican will acquire all the outstanding shares of GSE for an estimated total cash consideration of \$4.10 per share. The consideration per share represents a premium of approximately 50% to GSE's closing share price as of August 7, 2024.

Will Pelican partner with Ravi & his team to grow GSE?

Sam Veselka, a Managing Director of Pelican, said, "Pelican is excited to partner with Ravi and his team to grow GSE. As a private company, the team will have the flexibility to capitalize on growth initiatives and invest in technology to create value for their customers."

Nuclear energy is the best solution for scalable and reliable carbon-free power generation. We believe all energy sources are needed to meet the growing global demand for electricity, but the only carbon-free solution that can supplement base-load generation, such as natural gas and coal, during this long period of energy transition is nuclear energy.

Founded in 2011, Pelican Energy Partners ("Pelican") is a Houston-based private equity fund specializing in strategic investments in small to middle-market, high-growth potential energy service and equipment companies with sustained earnings outlooks. The firm has raised \$563 million of committed capital

and is investing out of its third fund.
