Cuba has commissioned a 60MW biomass plant, moving the island closer to a renewable generation target of 24pc by 2030. The \$180mn plant is owned by Biopower, a joint venture between Cuba's state-owned sugar company Azcuba subsidiary Zerus and UK renewable energy developer Havana Energy. Chinese state-owned engineering firm PowerChina built it.

Founded in 2017 in Switzerland, Hive Power is a leading provider of innovative solutions for smart grids. We are a team of researchers and scientists with deep expertise in smart grids, data science, and optimisation. We share a long experience in research and pilot projects on decentralised energy management.

Experience hassle-free battery swaps with the Powerhive app. Our self-service battery swapping process is available 24/7, allowing riders to effortlessly locate nearby swapping stations, initiate swaps with a simple scan, receive a fully charged battery and get back on the road swiftly. Enjoy the convenience of seamless, anytime battery swaps ...

Powerhive offers key tools and services for implementing profitable rural electrification projects in energy access markets around the world. Our technology platform is ideal for energy providers and developers of any size, and can be integrated with new projects or as a retrofit for existing mini-grids. As a complement to our technology ...

Como Hive Backed-Dollar y HIVE son transferibles a otros usuarios, y dadas las limitaciones que tienen los cubanos en acceder a casas de cambio (exchanges) extranjeras, desde Cuba han surgido emprendimientos que convierten los criptoactivos en pesos cubanos (CUP) y moneda libremente convertible (MLC). Uno de ellos es CuBEES. El proceso es muy sencillo: ...

In its new low greenhouse gas (GHG) emission strategy to 2050, submitted to the United Nations (UN), the Ministry of Energy Transition and Sustainable Development (MEM) of Morocco suggested to raise the share of renewable capacity in the country's total power installed capacity mix to 80%.

Cuba's national power grid has collapsed for a second time, leaving around 10 million people on the island without electricity once again. Cuban President Miguel Diaz-Canel said officials were ...

HAVANA (AP) -- A new, widespread power outage plunged Cuba into darkness on Wednesday after one of the island's major power plants failed, leaving millions without electricity and forcing authorities to suspend classes and work activities indefinitely. The Electric Union, the state-run power company, attributed the incident to the shutdown of the Antonio Guiteras Thermoelectric ...
