

How many countries has poweroad been installed in?

Utilizing advancements in BMS,EMS,and PCS technology,we've installed our solutions in over 70 countries,amassing 800 MWh deliveries. Backed by a comprehensive service model,Poweroad's innovative products energize projects worldwide,providing efficient,reliable,and intelligent energy storage solutions.

Can poweroad be used as an emergency power source?

It can not only be used as an emergency power source,but also can be used at peak times,saving family expenses and improving the quality of life. POWEROAD provides a complete energy storage system for homeowners,which can meet the needs of various building types and demand profiles.

What is poweroad & how does it work?

POWEROAD provides a complete energy storage system for homeowners,which can meet the needs of various building types and demand profiles. With the increasing demand for commercial buildings and industrial estates,the load peak-to-valley gap is expanding,requiring a more and more high-end and sustained power supply.

Why should you choose poweroad?

Aiming at commercial electricity consumption optimization,POWEROAD provides advanced one-stop customized solutions to boost power supply guarantees,resolving the problems of sizeable peak-to-valley price differences and inferior power quality.
