"The Monaco Solar & Energy Boat Challenge is doing its bit to think about the future of yachting," said YCM Secretary General Bernard d'Alessandri. " With this event, and as part of the project to make Monaco a yachting capital, the Principality is providing a conjunction for experiments from the industry, engineers, boatyards, students ...

Now, in order to be involved in energy transition beyond its borders, the Prince's Government and the Sociéte Monégasque de l'Electricité et du Gaz (SMEG) have shared their skills, with the creation, in late 2017, of the Monaco Energies Renouvelables company (Monaco Renewable Energies) (M.E.R.).

Energy Nordic te ayuda a aprovechar las subvenciones para energía solar disponibles en toda España, pstate a la energía solar con un 40% de descuento +34 900 696 820 [email protected] Mon - Fri: 09:00 - 17:00

To support the Principality's transition towards energy independence by 2025, in 2017 the Prince's Government and SMEG (Sociéte Monégasque de l'Electricité et du Gaz, supplier of electricity and gas in the Principality) joined forces to create M.E.R. To best cover the Principality's consumption curve, a targeted mix of technologies has been identified by the ...

So Monaco's sunny roads suddenly become energy suppliers. This first site is estimated to produce 5000 kW hours per year and up to 6 kW of power. This road surface should produce energy at approximately 90% of that produced by a normal photovoltaic panel of the same dimension.

Such developments are of great importance to the president of the Yacht Club de Monaco, HSH Prince Albert II. After meeting with exhibitors and contestants, HSH Prince Albert II encouraged participants by saying that ...
