IR-2024-168, June 18, 2024. WASHINGTON -- The Department of the Treasury and the Internal Revenue Service issued final regulations today on the prevailing wage and apprenticeship (PWA) requirements related to increased credit or deduction amounts for certain clean energy incentives, enacted as a part of the Inflation Reduction Act (IRA).. The IRA provides increased credit or ...

The total primary energy consumption of the Philippines in 2012 was 30.2 Mtoe (million Tonnes of oil equivalent), [2] most of which came from fossil fuels. Electricity consumption in 2010 was 64.52 TWh, of which almost two-thirds came from fossil fuels, 21% from hydroelectric plants, and 13% from other renewable sources. The total generating capacity was 16.36 GW.

The Philippine Energy Plan (PEP) 2020-2040 is the second comprehensive energy blueprint supporting the government's long-term vision known as Ambisyon Natin 2040. This updated plan, like its predecessor (PEP 2018-2040), reiterates the energy sector's goal to chart a transformative direction towards attaining a clean energy future.

Treasury and the IRS previously provided guidance on the PWA requirements in Notice 2022-61, which provided high-level rules on the PWA requirements and also started the 60-day "clock" for a PWA requirements transition rule such that projects on which construction began before January 29, 2023, are eligible for the higher credit or ...

We go to great lengths to bring only the cleanest, most reliable and affordable energy to our host countries, partners, communities and industries. ... Global and the Maharlika Consortium awarded 6 additional off-grid rural electrification ...
