

Who is St Lucia Electricity Services Limited?

St. Lucia Electricity Services Limited is the sole commercial generator,transmitter,distributor and seller of electrical energy in St. Lucia. The Company operates under an exclusive statutory license,under the Electricity Supply Act of 1994.

How much electricity does Saint Lucia have?

LUCELEC has an installed electricity generating capacity of 78.4 megawatts(MW),with peak demand of 60 MW. Most of the island's energy is produced from imported diesel fuel that powers electrical generators. Saint Lucia's electricity rates are more than triple the U.S. average.

Is Saint Lucia reliant on fossil fuels for electricity generation?

Like many island nations,Saint Lucia is almost 100%reliant on imported fossil fuels for electricity generation,leaving it vulnerable to global oil price fluctuations that directly impact the cost of electricity.  
Electricity Sector Data

Can a biomass plant be built in Saint Lucia?

A biomass plant requires large tracts of agricultural land and is not economically feasible. Rivers and waterfalls on Saint Lucia do not have a base flow rate sufficient to power water turbines. The most promising hydroelectric spot is the Roseau Reservoir,which can supply 150 kilowatts (kW).

What is the legal system in Saint Lucia?

Like most other English speaking territories in the region,St. Lucia's legal system is based primarily on English law with significant French influence in its commercial legal system. The head of Government is the Prime Minister as in most other Westminster type parliamentary democratic systems,which Saint Lucia has adopted.

Who is the head of government in Saint Lucia?

The head of Government is the Prime Ministeras in most other Westminster type parliamentary democratic systems,which Saint Lucia has adopted. The island gained independence in 1979 and is a member of the British Commonwealth.
