

What does the Senate of Chile do?

The Senate of Chile was created in 1812 to support the formulations of policies of the Government Junta. Since then it has undergone several constitutional reorganizations that have altered the scope of its constitutional powers, its composition and the generation of its members.

Why should you choose Senator power systems?

Senator Power Systems has developed highly efficient and versatile power supplies that can be adapted with a high degree of integration, safety and reliability to your needs. We design and develop reliable, compact and highly efficient power supplies. Our rugged power supplies are designed to meet the MIL Standards.

Why should you choose Senator's automotive power supplies?

Senator's Automotive power supplies are designed to meet the automotive standards. Our knowledge and experience enable us to produce innovative designs to meet your requirements. Our products are designed utilising Model Based Systems Engineering (MBSE).

What makes Senator a great company?

Senator aspires to a higher purpose that extends far beyond designing products, our knowledge, experience and passion for all things power electronics will add value to your organization. The company prides itself on providing excellent customer service, collaborative working approach and most importantly delivering high quality products.
