

What is Iraq's solar energy strategy?

Iraq's solar energy strategy should be based on attracting foreign direct investments with strong commitment to diversifying its energy mix and to become energy independent bolstered by its willingness to collaborate with international array of local and foreign partners. Iraq's path forward is not, however, free of potential pitfalls.

Does Iraq need solar energy?

Although Iraq tends to promote the country's solar energy in two ways: Utility-scale PV units could lead to a reduction in burning of oil and gas, and rooftop solar panels would help individual households reduce their own dependence on "expensive and polluting neighborhood generators". However, there are a lot in between of untapped distributed

Will Iraq reach 10GW of solar by 2030?

Iraq is aiming to reach 10GW of installed solar by 2030. Image: IRENA. French energy company TotalEnergies has revived its deal with the Iraqi Government to develop a 1GW solar PV project in the Basra region, part of a larger US\$10 billion accord to also establish new gas generation and seawater treatment facilities.

How much solar power does Iraq have in 2023?

According to the latest statistics by the International Renewable Energy Agency, it had just 1,599 megawatts of renewable energy capacity at the end of 2023. Iraq has abundant untapped solar resources that could allow it to achieve its target and reduce reliance on imports of electricity.

How many solar power sites are there in Iraq?

In July 2019, Iraq's Ministry of Electricity invited independent power producers to participate in developing seven PV solar power sites with a combined capacity of 755 megawatts (MW) in the range between 30 MW to 300 MW. Many local and foreign developers saw the announcement as a move forward in an attempt to diversify the country's energy mix.

How can small and medium scale solar be used in Iraq?

solutions of small and medium scale solar, which are more than rooftop but less scaled than utility scale such as distributed generation, which has not been addressed so far in Iraq, and could participate in relieving the overload on the national grid, achieve de-centralization, create jobs, develop SMEs, reduce electricity bills on the long-term.

At Simple Solar we pride ourselves on delivering the highest quality customer experience, our processes have been carefully considered with our homeowners in mind. With over 10yrs of experience in this industry, we have cultivated a ...

possibilities for supporting a safe, reliable, and sustainable power supply in Iraq. Favourable climate conditions in Iraq support ...
