

Where can I find a list of solar power plants in Slovenia?

Since 2007, the Slovenian Photovoltaic (PV) Portal has been providing information on solar energy in the Slovenian language. It is the only place where you can find a list of all solar power plants in Slovenia in one place, find basic information on the individual building blocks of solar power plants and find out about new developments.

What is the potential of photovoltaic energy in Slovenia?

Slovenia offers great potential for exploiting photovoltaic energy due to evenly spread solar irradiation. The first photovoltaic power plant in Slovenia was set up in 2001. At the end of 2017, 4,231 photovoltaic power plants had been installed in Slovenia with a total power of 267 MW.

Do solar power plants need a building permit in Slovenia?

Solar power plants with the maximum power of up to 1 MW are, according to the Decree, considered small power plants and do not require a building permit to be installed. The Decree simplifies investing in renewables and is a welcome change as procedures for obtaining building permits in Slovenia can be time-consuming. 3.

Does Slovenia have solar power?

Per analysis published by the World Bank which considers natural features of a location such as altitude, humidity, cloud cover, and topography, Slovenia's solar PV potential is relatively low compared to global resources, but is comparable to that of other central and eastern European countries which lie north of the Alps.

Are there wind power plants in Slovenia?

As certain regions in Slovenia are windy, opportunities for construction of wind power plants exist. Three are planned in the Eastern region of Slovenia by the investor Dravske elektrarne Maribor d.o.o., with a total capacity of 46 MW and 122 GWh annually, as well as another project being developed by Stiria Invest.

Does Slovenia have nuclear power?

Nuclear power in Slovenia, Slovenian nuclear energy, Krško NPP. Slovenia has shared a nuclear power reactor with Croatia since 1981. Slovenia has further nuclear capacity under consideration.
