

What is Botswana's primary energy supply?

Botswana's total primary energy supply (TPES) is fossil-based and largely reliant on oil products and coal, complemented by biomass and waste energy. A large proportion of TFEC comes from biomass energy in the form of traditional wood fuel (27.8%).

What is Botswana's energy potential?

For Botswana, the following technical potentials were identified: Wind (high capacity factor) - 1 152 MW. The least-cost analysis estimated a potential of 199 MW from renewable energy, 139 MW of which in utility-scale projects and 60 MW of-grid. The firm reserve margin would reach 23% in 2030, with zero net imports.

Who regulates the electricity sector in Botswana?

The Ministry of Mineral Resources, Green Technology and Energy Security (MMGE) leads the electricity sector through the Department of Energy, while the Botswana Energy Regulatory Authority (BERA) is tasked with regulating the sector by guaranteeing a competitive environment.

Does Botswana use biomass?

Traditional biomass - the burning of charcoal, crop waste, and other organic matter - is not included. This can be an important energy source in lower-income settings. Botswana: How much of the country's energy comes from nuclear power?

How can Botswana improve its energy supply?

This includes increasing the supply and reliability of Botswana's energy supply, reducing the cost of domestic electricity, reducing and ideally removing the need for Botswana to import external energy and creating a revenue stream through the export of cleaner electricity and sale of gas. ...

Does Botswana use bioenergy?

Source: Global Atlas (2021). Botswana is endowed with a range of bioenergy resources which could be used for energy production. Wood fuel remains the dominant cooking fuel for rural households, as 42% of the population relies on it (IEA, 2016). In 2009, a usage rate of 53% in rural and 13.1% in urban households was reported (SEforALL, 2012).

There are four types of electricity meters: mechanical digital, electronic digital, dial and smart meter. Smart meters send us your usage automatically but for the others, you will need to send us regular readings to make sure your bill is accurate. At times, we may also request for manual readings if there is a fault with your smart meter.
