Swiss quality in maintenance, monitoring and warranty coverage for 20 years. Invest in your own Swiss solar system with Youenergy. Get solar electricity for free while enjoying the advantages of subsidies and tax deductions. Benefit from Swiss quality engineering and our 5-year warranty and maintenance package.

Who is Swiss Green Power Tech?

Swiss Green Power Tech is a continuation of the Ukrainian enterprise IIG ALFA-INVEST, which, before the start of the war for more than 14 years, participated in the construction of renewable power plants with a total capacity - 255 MWh. We carry out installation of solar power plants for over 14 years.

Why should you install solar panels on your roof?

The value of your home is significantly increased by a solar installation on the roof. The federal government supports the purchase of solar systems with approximately 20 % subsidies. The investment costs can also be deducted from taxes in most cantons. Solar power from your own roof is cheaper than power from the public grid.

Die verwendete SmartWire Connection Technologie verbessert nicht nur den Wirkungsgrad der Meyer Burger Solarmodule, sondern erhöht auch deren Stabilität. Damit ist die gesamte Anlage weniger anfällig für leistungsmindernde Mikrorisse und zeichnet sich durch eine deutlich höhere Lebensdauer aus.

Second home - Switzerland. ... 380V power connection - installation of solar panels as an additional energy

source - front facades renewed and insulated - roof tiles renewed and insulated - heating installation (oil) and radiators with heat meters - general paving outside between the buildings - new garden landscaping, planting and two communal ...

The issue of glare or reflectivity has come recently in another creative use of solar panels in Switzerland. Sun-Ways has developed a way to install solar panels between the rails of railway ...
