

Solar power generator prices in United Kingdom

What is a solar generator?

...A Solar generator is of course a generator powered by solar power. These portable generators are powered by capturing energy power from the sun storing that power in a battery to be used mainly as a back-up. Popular uses are when camping, on boats at home and in the garden.

Are solar generators worth it?

Whether solar generators are "worth it" mostly depends on what you need and what your situation is. As an environmentally friendly option that makes clean energy with no harmful emissions, they're particularly useful in remote areas without access to the power grid or during power outages.

Will a solar powered generator charge my home?

A solar powered generator will not charge your home but is ideal for small appliances and devices including of course lap tops and mobile phones. Remember, no portable generator will power your home but some solar generators can power some key appliances in your home during an emergency.

Where can I find a solar generator?

Discover our collection of solar generators at [Anker.com](https://www.anker.com) for endless power at home or away.

What is a Jackery solar generator?
