

Pakistan, by the Grace of Almighty, is among the top five richest countries in Solar Power. Yet, it is plagued by extraordinarily prolonged power outages, which occur mostly during the summer months when, in fact, the availability of Solar Power is at its peak. For example Karachi has 320 sunny days in a year, among the highest on global score.

They also deal in imported solar panels ranging from Rs 15500 to Rs 16500. Nizam Energy. A well-known name in Pakistan's solar industry, Nizam Energy manufactures and distributes solar panels and offers various solar power solutions. Their project cost depends completely on your requirements, and you can purchase solar panels within Rs 18000.

You forgot to mention the fact that in 3-ph Hybrid system we also get the option to feed energy back to grid so on top of having charged batteries and running load on solar power, we could feed the excess energy back to the grid that makes the 3-ph hybrid system the best one out there (kinda expensive though).

It guarantees the lowest possible energy prices for the next 25 years, putting an end to the worry of ever-fluctuating and rising per-unit costs.. We must take steps to reduce our reliance on conventional energy sources and become more environmentally aware by partnering with the best solar company in Pakistan.
