

Where can I install solar panels in Spain?

For 8 years, we have been providing solar panels and kits and their installation throughout Spain, including Madrid, Barcelona, Valencia and other provinces. We take care of all the paperwork and approvals required for solar installations. Contact us today for a free calculation or project for your solar system.

Which latitude is best for solar panels in Spain?

Spain lies between 36° and 43° north latitude. This affects the efficiency of solar panels. The closer to the equator, the more solar energy there is. That's why we adjust the tilt and orientation of the panels to suit the location.

Where can I buy solar panels with 0% VAT?

Buy at Tienda Solar with 0% VAT!! Online store of photovoltaic energy specialists in solar panels, energy solutions, solar inverters, batteries and solar kits with over 10 years of experience. Purchase with your country VAT at Tienda Solar!

Why should you choose Tienda solar?

TIENDA SOLAR offers a variety of premium quality proven photovoltaic solar panels to suit every budget and achieve high-performance levels. They are also resistant to external influences and therefore very durable. For these reasons, our photovoltaic systems are particularly suitable for use in private homes and small businesses.

How much does a solar system cost?

The panels are connected to a hybrid 3-phase solar inverter Huawei 10 kW, which can control the power distribution from the panels, the batteries and the grid, depending on the need and availability. The project cost 15000EUR, which is a reasonable cost for a powerful and reliable solar system.

How much does a solar panel project cost?

The panels are connected to a hybrid 3-phase solar inverter Huawei 10 kW, which is a reliable and efficient device that can handle the power output from the panels and the grid connection. The project cost 13000EUR, which is a worthwhile expense for a green and economical energy solution.
