

What is Solarcentury Africa?

We've been part of the rapid evolution that has made solar photovoltaic (PV) the mainstream energy source that it is today. In sub-Saharan Africa, Solarcentury Africa is a market leader in the development of solar PV and storage projects using smart energy technology and controls.

How much energy does Solarcentury generate in Spain?

Solarcentury has received the grid access permits for two solar farms in Castellón and Alicante on the East coast of Spain, adding to those obtained last November in Turis and Alborache. The four Spanish sites will generate a total of 980 GWh/year, equivalent to the annual energy consumed by 290,000 local households.

What is Solarcentury's first solar project in Latin America?

Divisa Solar, built in 2016, was Solarcentury's first utility-scale (large-scale) project in Latin America. Chile combines some of the best solar resources in the world with a government committed to the energy transition. Solarcentury built the 40 MWp Doña Carmen project in 2017 supplying clean energy to the equivalent of 21,000 homes each year.

Who builds solar farms in Spain?

Solarcentury has built some of the main solar farms in Spain together with its German partner Encavis AG. Talayuela Solar (Extremadura) is one of the most important photovoltaic projects in Europe, with a power generation capacity of 300 MW. They also partnered to develop Cabrera Solar, totalling 200 MWp in Seville.

What does Solarcentury do in South Africa?

Our East Africa projects showcase our African experience, knowledge and expertise across a range of solar applications, including pioneering hybrid and off-grid systems. Solarcentury has been active in South Africa since 2013, originally focused on rooftop projects.

What is Solarcentury Africa & Sino energy doing?

Solarcentury Africa and Sino Energy achieves Financial Close on t... The 20 MWp solar PV plant will be the first fully merchant independent power producer trading all of its renewable power... Solarcentury Africa achieves financial close on a 14 MWh battery...
