Join, start, or support a community solar project. Sometimes called solar gardens, a community solar project is a large, central solar power plant whose electricity is shared across properties. Participants can choose between shared ownership or a subscription to an offsite solar array and typically receive an electric bill credit generated by their share of the community solar system.

The European subsidiary of China Three Gorges (CTG), the largest renewable energy group in the Asian country, has bought a 619 megawatt solar PV portfolio, entirely in Spain, from Nexwell Power and Ibox Energy. It was in fact its Spanish subsidiary, which in turn depends on the European subsidiary, which was the main player in the operation.
