Click on the dropdown to select GBP in the first dropdown as the currency that you want to convert and LKR in the second drop down as the currency you want to convert to. 3

Why switch to solar power. Sri Lanka is one of the most expensive energy markets in the world. The use of solar can significantly reduce or eliminate your electricity bill as well as ensure an uninterrupted power supply. The average payback on solar power in Sri Lanka is 5 years. After this payback period, you are earning money on your roof.

Solar Power Systems Residential Solar Power Systems. With the existing Net metering schemes, Residential Solar power systems are the most feasible with a cost recovery period of fewer than 5 years depending on your monthly consumption. With a reasonable investment, you can make your home run on 100 % green energy for up to 20 years.
