

Your solar panel orientation is an important part of the sizing of photovoltaic and solar thermal systems. Since solar power produced is directly proportional to the orientation of solar panels, the right orientation can not only maximize solar power but also decreases the cost of the project.. The orientation is composed of two parameters: direction and tilt angle.

Description On Sunday 26 June 2022, the opening of the "Power project Suriname electricity system upgrade and expansion", the so-called Solar Farm, took place in Clarapolder in the Nickerie district. This is named after the recently deceased manager of the N.V. EBS Nickerie, Mr. Brian Overeem. The official inauguration was done by Surinamese President ...
