

Can I use a charger in Turks and Caicos Islands?

Chargers for iPhones, Android phones and other smartphones or cell phones are usually dual voltage, so you can use them all over the world. However, it is possible you'll need an adapter to plug the charger into a Turks and Caicos Islands outlet. Turks and Caicos Islands uses electrical outlets and power plugs of types A & B (see images).

What type of power plugs are used in Turks & Caicos Islands?

On the Turks and Caicos Islands, power plugs and sockets (outlets) of type A and type B are used. The standard voltage is 120 V at a frequency of 60 Hz. For more information, select the country you live in at the top of this page. We don't sell power plug adapters. We refer you to Amazon, where you will find a great selection of travel adapters.

Can I connect my laptop charger to an electrical outlet in Turks & Caicos Islands?

Yes, you can connect your laptop charger to an electrical outlet in Turks and Caicos Islands as long as the outlet is compatible with the charger's voltage and plug type. In Turks and Caicos Islands, the standard voltage is 120V and the standard frequency is 60Hz.

Who provides electricity in Turks and Caicos?

Together, both companies provide electric power in Turks and Caicos to over 15,000 customers and are regarded as one of the most reliable electricity providers in the Caribbean. FortisTCI offers customized energy audits to help customers achieve greater energy efficiency and savings.

Do I need a voltage converter in Turks & Caicos Islands?

Yes, the electrical outlets in Turks and Caicos Islands are the same as in the United States, both countries use power plugs and electrical outlets of types A and B. The voltages used in Turks and Caicos Islands and the United States are also compatible, so you don't need a voltage converter.

What is the standard power socket voltage in Turks and Caicos Islands?

All power sockets in Turks and Caicos Islands provide a standard voltage of 120V with a standard frequency of 60Hz. You can use all your equipment in Turks and Caicos Islands if the outlet voltage in your own country is between 100V-127V. This is mostly the case in the US, Canada and countries in South America.
