

Could islands cut ties with the fossil fuel industry?

Many islands have access to abundant wind,solar,hydro,tidal,biofuel,or geothermal energy resources and could significantly cut ties with the fossil fuel industry.

Why do small island states have a unique economic and ecological vulnerability?

Small Island states share a number of unique economic and ecological vulnerabilities. Islanders depend heavily on the resources of an inherently limited environment,and any resources not provided by the island (fuel,food,labor,etc.) must be imported at great expense (Ewing-Chow 2020).

Why are island communities so vulnerable?

Islands also experience some of the highest energy costs and resource insecurity and are often home to important and unique ecosystems. These ecosystems can be extremely vulnerable to the existing energy infrastructureserving island communities.

Are island states a good investment opportunity?

There is also a unique investment opportunity inherent in island states:they face an acute version of the renewable energy challenges faced by the rest of the world--namely,limited land area and the inherent variability and intermittency of renewable energy resources.

Could geothermal power power a small island?

While most small islands will have to rely on intermittent solar or wind power,others are blessed with significant geothermal or hydroelectric potential that could provide a baseload electricity supply,and could conceivably follow the paths of Iceland and New Zealand.

Why do islands need a strong public policy?

They are the communities that are able to switch quickly and galvanize public buy-in through the use of another tool: strong and innovative public policy. Although islands often lack access to financing and affordable manufacturing,they have every reason to embrace renewable energy and sustainable local solutions.

On May 6, 2021, Plaintiff amended its Complaint against Defendant Noil Energy Group, Inc. to substitute Doe 1 with Noil USA, Inc. On May 14, 2021, Plaintiff filed two new Complaints against Defendants: one against Noil Energy Group, Inc. and Noil USA, Inc. (Case Number 21STCV18270) and the other against Speedy Fuel, Inc. (Case Number 21STCV18251).

"Based on NOIL's failure to submit all required reports and NOIL's sale, offering for sale, and/or supply of alternative diesel fuels containing greater than twenty percent biodiesel by volume, the Air Board issued to NOIL on February 5, 2019 Notice of Violation #F100317- NOIL-BD and a Records Request, in which the Air Board requested ...
