

AYK Energy founder Chris Kruger said the new factory will massively ramp up production capacity, using a new automated manufacturing system, to 300 MWh a year with the ability to scale up to 1 GWh a year. "The new AYK factory will seriously disrupt the marine battery market," he said. "From here we can build the highest quality, safest ...

AYK Energy founder Chris Kruger said the Andorra based company is increasing production at its factory in Zhuhai, China to supply the retrofit project at HSG's shipyard in Werkendam. He said the contract will see ...

? How do we decarbonise the maritime industry and sail towards a greener future? ? In the latest episode of my #ClimateConfident podcast, I sat down with Chris Kruger, founder of AYK Energy Ltd., to unpack one of the most pressing challenges in shipping: #electrification and the role of #batteries in transforming maritime transport. Chris has been at the forefront of marine battery ...

Marine and stationary Energy storage solutions. Marine power battery suitable for high C-rate applications. Good for high peak power applications such as spinning reserve or peak shaving on Hybrid vessels such as OSVs, drill rigs or hybrid ...

Marine battery manufacturer AYK Energy is reinforcing its position as one of the sector's prime innovators after signing a new deal with Holland Shipyards Group (HSG) to supply the zero-emission ...

Self-disciplined, self-motivated professional who always enjoys learning new things, and...

Brittany Ferries will fit a second vessel with AYK Energy's battery systems, following the completion of a first installation on its newbuild hybrid-LNG ferry Saint-Malo and successful sea trials in China.. The 12 megawatt-hour (MWh) Orion+ battery was manufactured and installed within four months at China Merchants Jinling Shipyard Weihai, AYK Energy said ...

AYK Energy Ltd. | 807 followers on LinkedIn. Energy storage systems for marine and industrial applications | We are committed to optimizing safety and reliability through our dedicated R& D team, continuously refining our algorithms for both existing and future systems. To learn more about how AYK Energy is revolutionizing marine energy storage, visit our website at ...

AYK Energy has installed the biggest marine battery in the world on board Brittany Ferries new hybrid LNG-electric ferry the Saint Malo. The 12 megawatt-hour (MWh) Orion+ battery was manufactured and

installed within four months at China Merchants Jinling Shipyard Weihai. The ferry will operate the Portsmouth UK to St Malo France route ...

AYK Energy. AYK was founded in 2018 by Chris Kruger with the goal of producing a low cost battery that offered superior performance and safety, that exceeds class and industry standards. Already a pioneer in the marine battery ...

According to AYK Energy, the vessel's diesel engines will be replaced with PEM fuel cells, storage for their hydrogen fuel, two AYK high-density DNV-approved Aries 88 lithium batteries and an electric drive train.

The new-build project will complement AYK's 5,000m² factory in Zhuhai, China, which opened in 2023. The China plant has a production capacity of 300MWh a year (with the ability to expand to 1GWh a year) with ...

AYK Energy founder Chris Kruger said the vessel will be able to operate on zero-emission battery power while entering and exiting the port, immediately improving air quality and cutting emissions in built-up port areas. He explained that the vessel is designed to run on LNG, battery power, or a combination of the two. In Portsmouth, the ship will further benefit ...
