Eaton is generally considered to be the best brand of UPS without going into multiple thousand dollar industrial units ...

An industrial UPS (Uninterruptible Power Supply) system is a backup power device designed to protect critical equipment in industrial settings from power outages, voltage fluctuations, and surges. It ensures continuous power for machinery and electronics during interruptions.

An Uninterruptible Power Supply, or UPS, is required when the AC power that runs sensitive equipment is not reliable or not well regulated or filtered. During power brownouts or blackouts the UPS can provide AC power to the equipment, such as computers or emergency lighting, for a period of time, usually until normal power source is restored.
