

Why should you choose Modula automatic vertical storage solutions?

Modula automatic vertical storage solutions are designed to save space and time and improve process efficiency. The automatic vertical tray warehouses were designed according to the "goods-to-man" principle: there is no need for operators to move around the warehouse to pick or refill your goods.

How do vertical lift modules reduce storage footprint?

Vertical lift modules decrease the storage footprint by housing shelves vertically in an elevator-like system. By compressing what could be dead space in a facility, overall storage increases. Each of these ASRS solutions has its own optimal density and throughput environments.

What is a modular vertical storage solution?

Created to make the most of available vertical space and save floor space at the same time, Modula automated vertical storage solutions are suited to any type of product, in any industry sector or environment, and can be customised to various payloads, heights, sizes and options.

What is a Modula automatic vertical tray warehouse?

Modula automatic vertical tray warehouses allow you to store goods in a clean, tidy, safe and fast-moving system, reducing the number of movements operators need to make and avoiding damage to your goods. Modula automatic vertical storage solutions are designed to save space and time and improve process efficiency.

What is a vertical lift module?

Our Vertical Lift Modules (VLMs) combine space-saving efficiency with industrial vending machine precision and control. An innovative warehouse solution designed to safely handle euro pallets directly from the ground. What Is Case Picking? [Methods, Benefits & Best Practices] 2024 Modula GROUP. All Rights Reserved.

Is it time for an automated storage and retrieval system?

It may be time for an automated storage and retrieval system (ASRS). At their core, automated storage and retrieval systems, or ASRS for short, are computer-controlled inventory management systems that automate the storage and retrieval of unit loads for picking, packing, and shipping.

Vertical storage is a type of storage system that utilizes the vertical space of a facility, maximizing storage capacity while minimizing the floor space required. This is achieved through the use of vertical lift modules (VLMs), which are automated storage and retrieval systems that consist of two racks of shelves stacked upright with an ...

Dexion Tornado storage machine is rapid, energy-efficient and silent automated storage and handling system, which operates on the "goods to person" principle. It is easy to tailor to each customer's needs. Tornado Lift machine offers safe and secure storage for storing and handling your small items in your warehouse or shop.

Created to make the most of available vertical space and save floor space at the same time, Modula automated vertical storage solutions are suited to any type of product, in any industry sector or environment, and can be customised to various payloads, heights, sizes and options. Modula automatic vertical tray warehouses allow you to store goods in an clean, tidy, safe and ...

Thanks to our automated storage solutions for controlled environments, medications and their ingredients remain effective and safe for use.. Modula Climate Control is a vertical lift module (VLM) designed to ...

Complete this quick cost justification worksheet by filling in the numbers for your current system, then we will calculate and compare the impact of a dynamic storage solution in your operations. Note: Numbers currently used are industry-standard benchmarks, please input your numbers for personalized results.

Discover how our automated storage systems maximize efficiency today. Skip to content (512) 853 9177. About Menu Toggle. Success Stories; Schedule a Consultation. ... Vertical carousels are automated storage solutions that optimize space and enhance efficiency in various settings. They operate on a rotating mechanism that brings items directly ...

Vertical Carousel vs Vertical Lift Module Learn which automated storage system is the right fit for your operation. Learn more Vertical Buffer vs. Vertical Lift Module Dive into both solutions to determine which would make the most sense for your operation. Learn more Prev Next. Contact Us ...

Modula Horizontal Carousel Modules (HCMs) are fully automated horizontal storage systems that are designed for low-ceiling environments. ... For higher ceilings, a vertical lift module is a better choice. But there are other key factors to keep into consideration such as the size and weight of the parts being handled as well as the business ...

ELF Automation is an Australian Manufacturer of Vertical Lift Machines and Automated Storage & Retrieval Systems that assist companies to increase profitability through improved output and accuracy. ... -edge design, superior craftsmanship, and top-tier components to craft a ground-breaking, durable, and dependable vertical lift storage systems ...

The vertical carousel storage system optimizes overhead space and picking productivity and accuracy using inventory management software. Skip to content +1 (800) 803-1083. ... The vertical carousel is an automated vertical storage system with rotating shelves. The shelves or carriers rotate like a Ferris wheel at the push of a button to bring ...

Vertical storage solutions are the best way to make use of every inch of warehouse space you have. We don't mean building out, we mean building up. With products like Vertical Lift Modules and automated storage and retrieval systems (ASRS) from our partners at Modula, we are able to recover up to an incredible 90% of the currently used floor space.

A vertical carousel (VC) is an automated storage and retrieval system that is designed to store inventory while reducing the floor area needed for storage, thanks to its upright and compact structure.. A typical vertical carousel ...

Specialist in vertical storage systems, SYSTEO provides a solution adapted to each project by relying on a wide choice of mechanical components. Contact us. GET IN TOUCH WITH US : +33 272 777 122 - info@systeo-industrie - ...

Automated storage and retrieval systems, also known as ASRS, are extensively utilized in both manufacturing and distribution centers. They can replace extensive shelving to save floor space, improve employee safety and ...

Thanks to our automated storage solutions for controlled environments, medications and their ingredients remain effective and safe for use.. Modula Climate Control is a vertical lift module (VLM) designed to regulate humidity and temperature, preventing issues caused by temperature fluctuations, such as loss of potency or spoilage.. This temperature ...

A vertical lift module, also known as tray lift and lift storage system, is an automated storage system for small parts. A vertical lift module resembles an oversized drawer cabinet made from metal with two large warehouse areas ...
