European transmission system operator OGE and Belgian hydrogen company Tree Energy Solutions (TES) are developing a pipeline network to transport CO2 across Germany and enable its reuse in a closed-loop system to transport renewable hydrogen. The network will span 1,000km and transport around 18 million tonnes of CO2 a year.

In 1991, BNP Nouvelle-Calédonie, a subsidiary of BNP Paribas, established a subsidiary, Banque de Wallis-et-Futuna, in the territory. Two years earlier Banque Indosuez had closed its branch at Mata-Utu, leaving the territory without any bank. Following this, the Bank of Wallis-and-Futuna (BWF) with its head office in Wallis was created in 1991.

The territory is made up of three main volcanic tropical islands along with a number of tiny islets, and is split into two island groups that lie about 260 km (160 mi) apart, namely the Wallis Islands ("Uvea) in the northeast, and the Hoorn Islands (also known as the Futuna Islands) in the southwest, including Futuna Island proper and the ...
