LG made some nice panels. Not sure if you can still find any USA "made" SolarWorld panels anymore. Hanwha makes some nice bi-facial Q-cell panels. Sun power has some flexible smaller panels. Renogy has some good smaller panels. I've seen a ...

Reliability. Damp heat test. Top performers: Astronergy, JA Solar, Longi Solar, Qcells, Runergy, Trina Solar, Yingli Solar. The RETC thresher test includes a damp heat test that exposes modules ...

Do not buy panels or batteries from Victron, they are expensive. Only mppt, inverter and all their other equipment. In Germany on Kleinanzeigen we have a few good sellers. They are already importing from china, i bought 31 ja solar 530w panels for 6355 Euro including tax.

If you have the budget for a premium panel like REC or LG and want the peace of mind of the absolute best, go for it. But you can also save a chunk of change with a value-oriented brand like Q Cells or Canadian Solar and still get 90-95% of the performance. Just stick to established brands with a good track record and solid warranty support.
