

Are solar panels a viable option for Winnipeg residents?

Over the last 5 years however, solar panels have become more efficient and have decreased in price by over 80% making them a viable and economical solution for Winnipeg residents renewable energy needs. Even though solar panels save you money in the long run, it can be difficult to afford the upfront costs of purchasing and installing your system.

Is Winnipeg a good place to install solar energy?

Winnipeg gets on average 315 sunny days/year, and is the best place in Canada to implement solar energy solutions. Many homes produce 20% - 50% of their annual power needs through rooftop solar systems. This is a green alternative even to hydro-electric which (although cleaner than coal) is devastating to many ecosystems.

How do I get a solar panel installed in Winnipeg?

Our solar experts are here to help you get started. Just leave your contact details to request a call back. Power your property with EVOLV solar, the leading solar company in Winnipeg. Call us for solar panel installation today.

Can solar power save you money in Winnipeg?

With most of Winnipeg experiencing over 300 days of sunshine on average, that's a huge opportunity to maximize solar power for your property, significantly saving you thousands of dollars while minimizing your energy footprint on the environment.
