Selección, activación y carga de la batería en baterías para motocicletas y deportes de motor. Selección de la batería. La selección de la batería correcta es una decisión importante que, en última instancia, afectará a la satisfacción del cliente.

Fiji's transport sector is completely dependent on fossil fuels with fuel import bill equivalent to an average 58 % of export earnings and taking up 21 % of total import bill. The smallness of Fiji and dispersed islands within Fiji group leads to many challenges to have accessible, affordable and sustainable energy supply.

Chenyu Fuji New Energy is a clean production material for negative electrode materials and waste battery recycling. Their products include lithium-ion batteries, water-based energy storage batteries, and hydrogen fuel cells, as well as the development of new green recycling technologies for used batteries.
