

Are there solar companies in Zambia?

The solar sector in Zambia hosts a variety of solar companies, operating in several business segments. These businesses vary from Solar Home Systems to utility scale developers. There are also international companies active in Zambia, mainly in the utility scale sector. Most offices of the companies in Zambia are located in Lusaka.

Why is solar power important in Zambia?

Right now, Zambia mainly depends on hydropower, due to the large dams generating electricity in the country. Droughts made this electricity source less dependable and combined with the increase in electricity demand a new renewable source is desirable. The growth in solar power is therefore of great value and goes beyond just the energy sector.

Does Zambia have a solar market?

The Zambian solar market is growing, although it is still relatively small in comparison with countries like Tanzania. 95% of the electricity supply in the country comes from hydropower, where less than 1% comes from other renewable sources. Since the electricity demand in Zambia is growing, there is much room for solar to grow as well.

Who are sunlight electrical solutions?

Sunlight Electrical Solutions - Zambian-based experts with international (UK) certification for solar energy, storage, electric charging points, and domestic, industrial, and public electrical installations. Reliable, certified, and country-wide.

It designs, manufactures and sells PV solar modules. The company produces solar systems using cadmium telluride technology. First Solar also offers solar PV power systems, and operations and maintenance services to system owners; and energy storage solutions and algorithms to design and simulate the optimal dispatch of a system.

SolarAid first opened its SunnyMoney office in Zambia in 2008. Since then, SunnyMoney has been building a sustainable solar market in Zambia through the sale and distribution of pico-solar lights. Only 14% of rural households in Zambia have access to electricity.
